Course Evaluation Results

Dear Professor Davis,

This email contains evaluation results for your WEB DESIGN X-L (COM263IFA2010) course.

Please note that the global indicators are listed first, followed by the individual average values, consisting of the following scales:

- THE COURSE
- THE PROFESSOR

In the second part of the analysis, the average values of all individual questions are listed, followed by student comments.

If you have any questions, please don't hesitate to contact the system administrator at class.climate@ut.edu.

Thank you

Juliet Davis

2. THE PROFESSOR

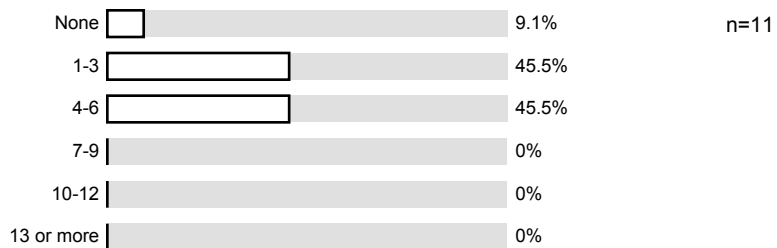

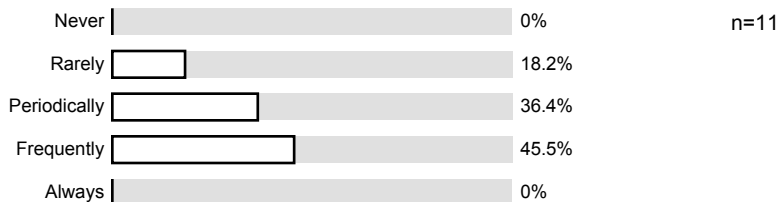

4. THE STUDENT

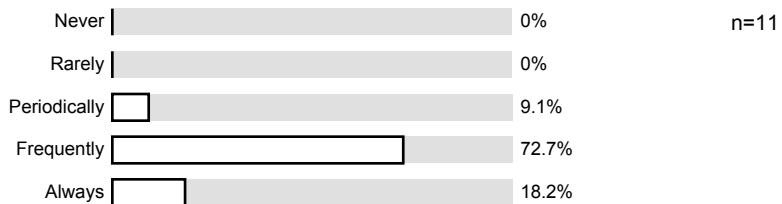

4.3) Approximately how many hours *per week* did you spend on this course outside of the classroom?

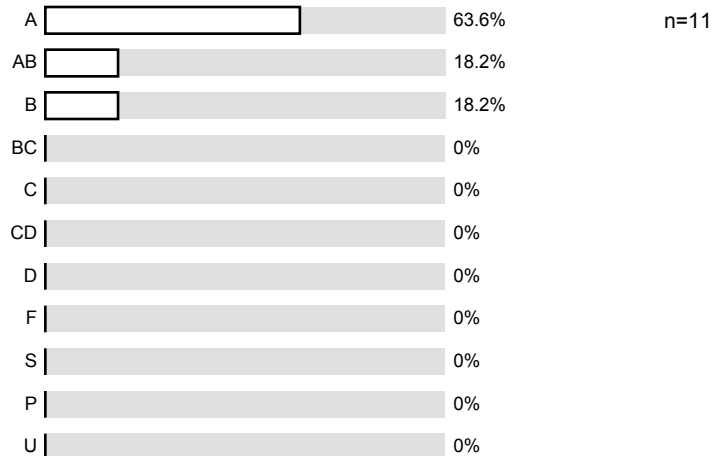

4.4) How often did you seek the professor's assistance?

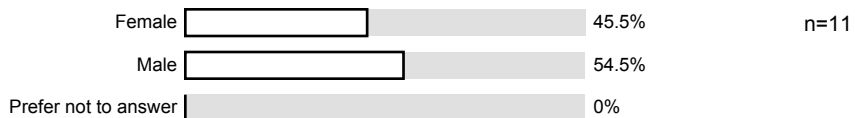

4.5) Based on the professor's expectations, how often were you fully prepared for class?

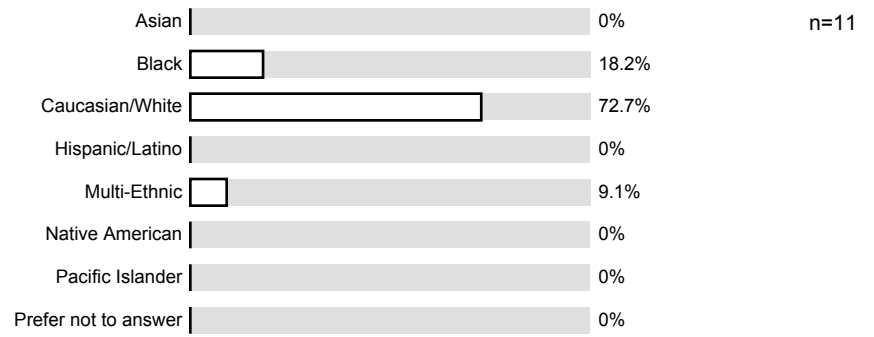

4.6) I believe my final grade in this course will be:

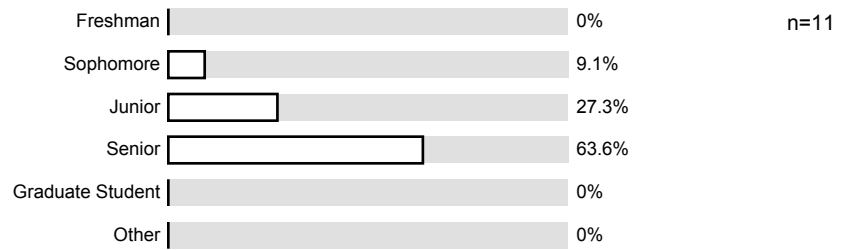

4.7) I am:

4.8) I consider myself to be:

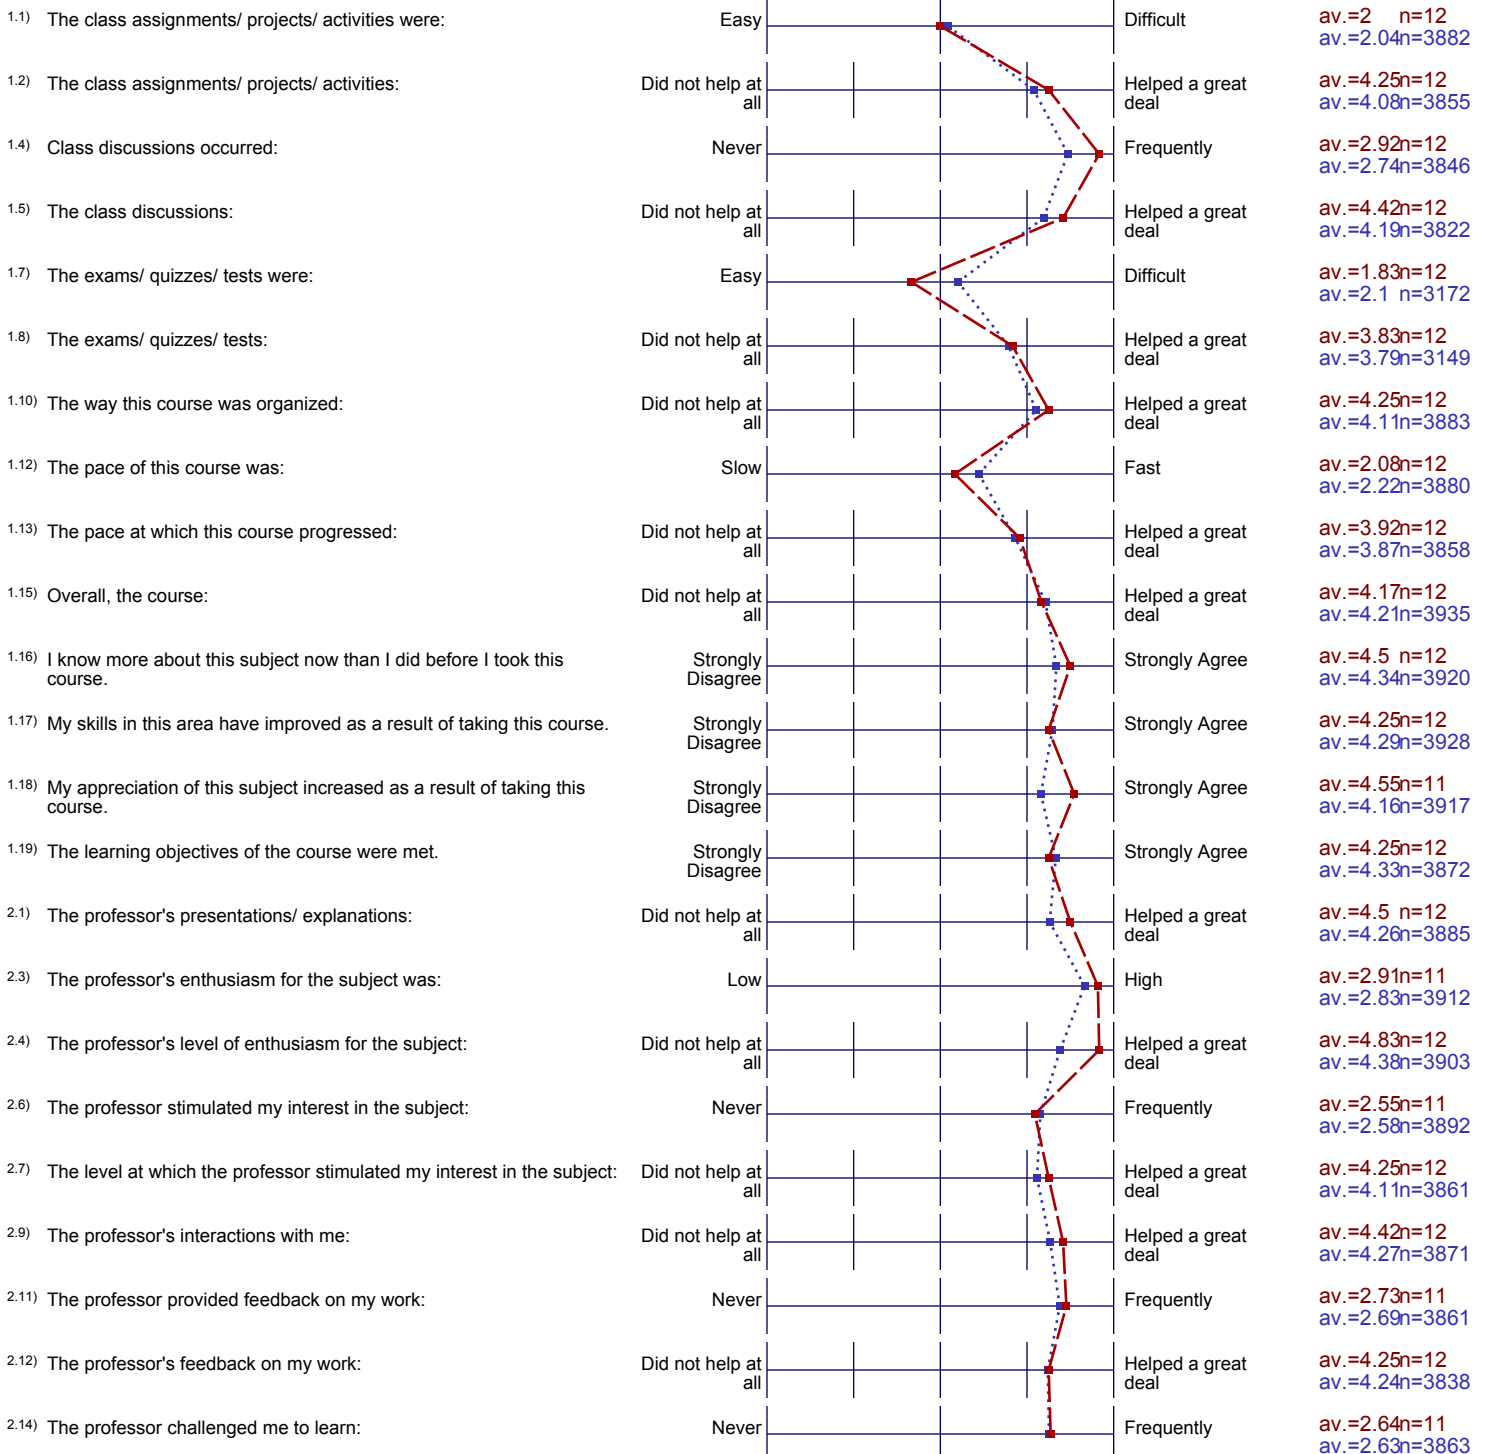

4.9) My current status at UT is:

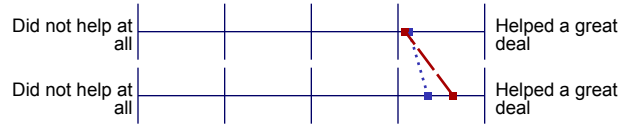

Profile

Subunit: College of Arts & Letters (CAL)
 Name of the instructor: Juliet Davis
 Name of the course: WEB DESIGN X-L (COM263IFA2010)
 (Name of the survey)
 Comparative line: FA 2010 14 wk CAL all courses

2.15) The level at which this professor challenged me to learn:

av.=4.08n=12
av.=4.13n=3843

2.17) Overall, the professor:

av.=4.64n=11
av.=4.35n=3743

Comments Report

1. THE COURSE

1.3) Comments on class activities:

- I really enjoyed having Juliet there to help with anything we needed.
- It was a step by step process that made the class easy to understand and fun.

1.6) Comments on class discussions:

- Able to see where others were having trouble and helped me with my problems

1.9) Comments on exams/ quizzes/ tests:

- Some were easy, others were quite difficult.

1.11) Comments on course organization:

- I liked how the class was organized...sometimes I got bored, but I understood that other students don't catch on to subjects like this very quickly. I am patient and still felt like it was a good pace.
- It was done in steps that made the work load easier to handle

2. THE PROFESSOR

2.2) Comments on presentations/ explanations:

- Her website was a HUGE HELP
- She is the best professor I have ever had. Her online tutorials are amazing and she is the most thorough and helpful teacher I have ever had.
- She was extremely personable and very funny, a great professor

2.5) Comments on enthusiasm:

- She got me excited to work every day

2.10) Comments on interactions:

- Again, very personable, knew everyone's name right away
- I unfortunately had to figure a lot of things out on my own, which I'm not fond of.
- So helpful

2.13) Comments on feedback:

- When creating my website, she could not answer my technical questions and did not really help me correct the issue. Whereas with other students she spent alot of time with them on simple things we went over in class numerous times.

3. Additional comments

3.1) What aspect(s) of your **classroom experience (course, professor, etc.)** helped your learning most?

- I never felt overwhelmed by the work and I have learned more from Juliet Davis in this class than I have in any other class in any subject I have taken in the past 3+ years. So many times I left class with strong feeling of accomplishment and I am proud of the work I have done in this class.

- Juliet Davis is VERY kind and VERY approachable. She's always there to help us.
- The exercises helped me, along with the quiz reviews and quizzes. Also listening to other students and their problems...and how they worked through them was very helpful. I think I lucked out and got an outgoing class.
- The professor's enthusiasm and personality helped a great deal, I cannot wait to take another class by her.
- The tutorials helped alot.
- Videos on her site

^{3.2)} What aspect(s) of your **classroom experience (course, professor, etc.)** could have been changed to help your learning?

- I never really was able to get any one-on-one attention. I don't blame the instructor, but I really don't like learning something on my own when I'm paying to learn. I was just in a class full of attention hungry students, and I am too quiet to speak up when I need help...so that was my fault. I also don't like having all our lessons online. I think it was great that she posts tutorials on her web page for us to review... but I prefer to learn things from the teacher in class. If I wanted to learn from video...I would live on You Tube. And I never watched any of the videos BTW.
- Ms. Davis tends to "hold our hands" alot. I would change that because the way she teaches the class, she should not have to do this. Those who actually do the work suffer because she is spending more time going over things that are directly from her lectures, whether in class or in her online tutorials. We are required to view these tutorials as hw assignments. If she spent less time going over the same things in class, those of us who have questions about things that are not in the lectures would be able to challenge ourselves and learn more from the class. Also, it holds us back in developing our websites.
- Not sure, the tests that were hard seemed to be ones I didn't study all too much for, so maybe an easier testing schedule, not to sure, the best part of the class were the online videos we could watch while doing the assignment to help us with things we may have forgotten.
- Nothing
- nothing.
